
TOBI HARRIS

EXECUTIVE CENTRAL GROUP PTY LTD

TOBI HARRIS PRINCIPAL CONSULTANT

Tobi is an energetic, creative and inspiring executive coach, who delivers strong transformational results within organisations by implementing authentic focus on people, diversity and cultures and deriving change through supporting personal development. Her belief is that when people live their purpose every day, they bring wellbeing to themselves and wealth to the organisation. Individuality is a strength which should be embraced to bring the best out in people and in teams and it is understanding each individual that matters the most.

Tobi's purpose and passion is that through her inspirational leadership, facilitation, integrity, technical skill and vibrant personality, encapsulated with her kind nature and care, she helps develop teams and individuals to unlock their full potential; by heightening awareness of the positive and understanding of combined strengths, she leads clients to reach optimal levels of performance.

In working across multiple industries over the past 20 years including the fast moving consumer goods, theatre and fitness, Tobi has an unusual consolidation of senior management experience in leading teams and cultural change, and an ultimate understanding of what it takes to reach the highest levels as a professional athlete and actor. This diversity provides her with a broad width of ideas and experiences that when tapped into, support and allow people to go beyond their boundaries. Tobi's favourite moments are when people awaken to realise that they have far more personal resources and greater capability to achieve goals, far beyond their previously thought limitations.

Tobi has a strong devotion to positivity, achieving results through alignment of goals, and an innate love for learning which has driven her to continue her studies at the Australian College of Applied Psychology beyond her previous studies in marketing. Her curiosity and love of life drives her desire for knowledge and understanding.

Tobi's love of theatre saw her perform professionally in musicals and opera's including the original Australian production of Les Miserable and the German production of Cats, and her love of fitness allowed her the opportunity to represent Australia three times in World Aerobics competitions, all of which she is truly grateful to have achieved.
